01

# Customer shopping behavior points to a loyalty opportunity.

A large loyal base, concentrated demand, and clear levers for repeat growth.

Made with GAMMA

# The customer base is large, loyal, and under-subscribed

## 3,900

purchases across four product categories

## 3,116

customers classified as loyal, versus 701 returning and 83 new

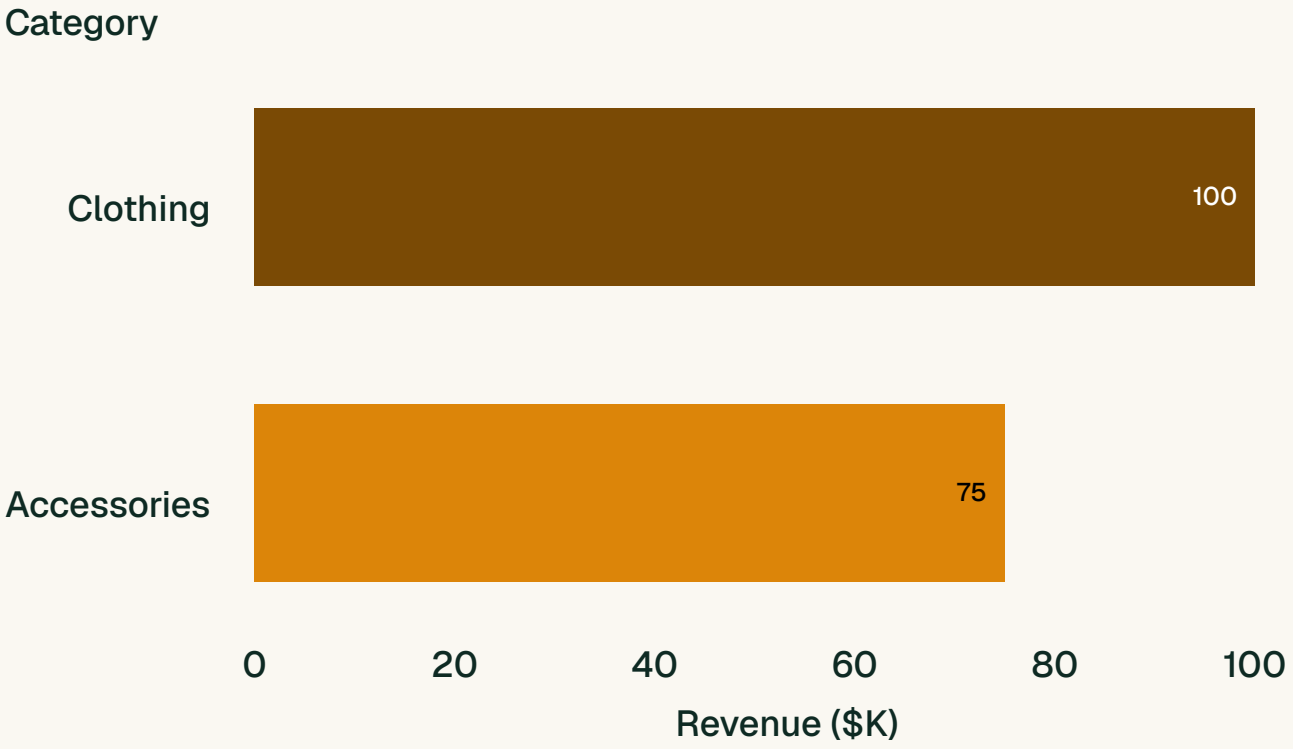

## 27% / 73%

Only 27% of customers subscribe; 73% remain outside the program

Made with GAMMA

COMMERCIAL ENGINE

# Clothing leads the revenue pool

## Clothing leads revenue at $100K and roughly 1,800 orders.

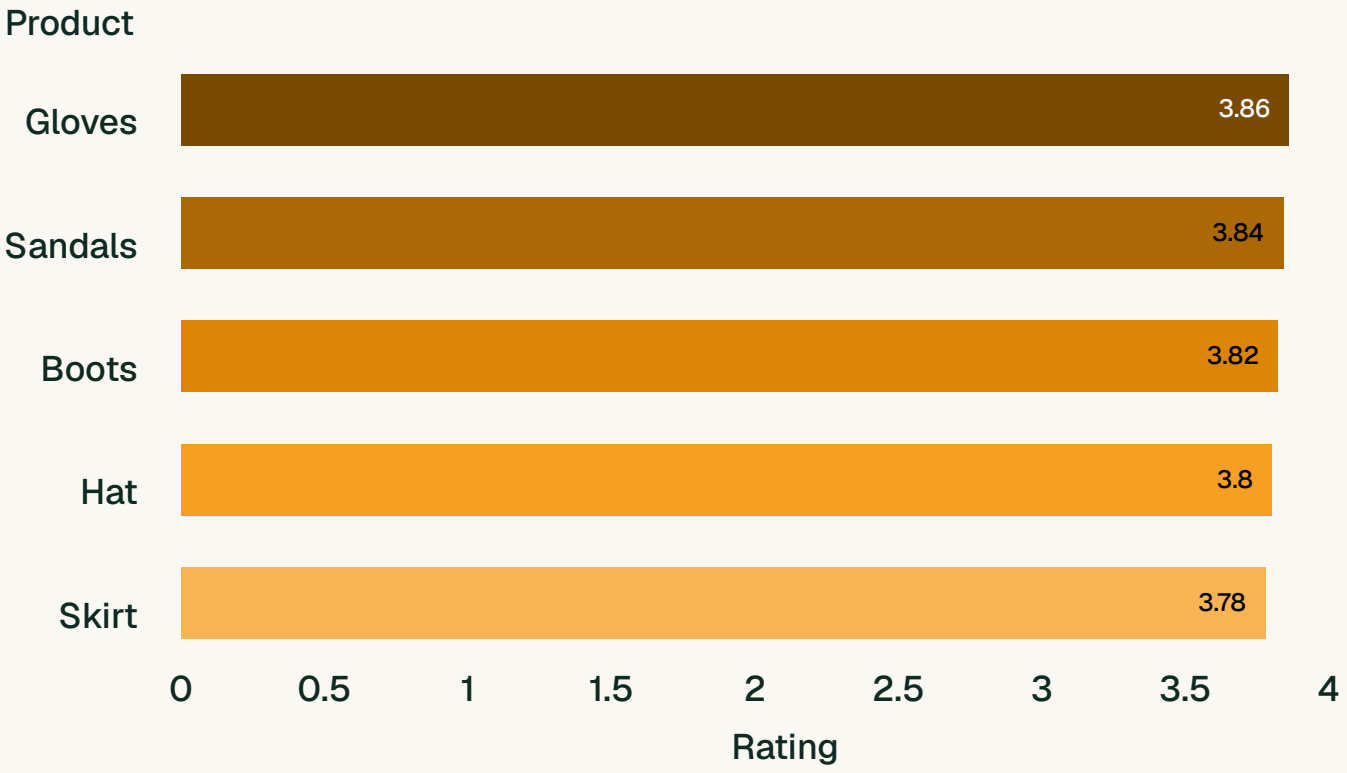

## Accessories follow at $75K and roughly 1,200 sales.

Footwear and outerwear are smaller revenue pools, creating focused growth lanes.

Made with GAMMA

PRODUCT DEMAND

# A few repeatable winners can anchor the message

Top-rated items create credible campaign anchors and cross-sell entry points.

Category leaders include Jewelry, Blouse, Pants, Sandals, Shoes, Sneakers, Jacket, and Coat.

Made with GAMMA

DISCOUNT CONTROL

# Discounts attract high spend, but policy needs sharper control

**839**

customers used discounts while spending above the average purchase amount

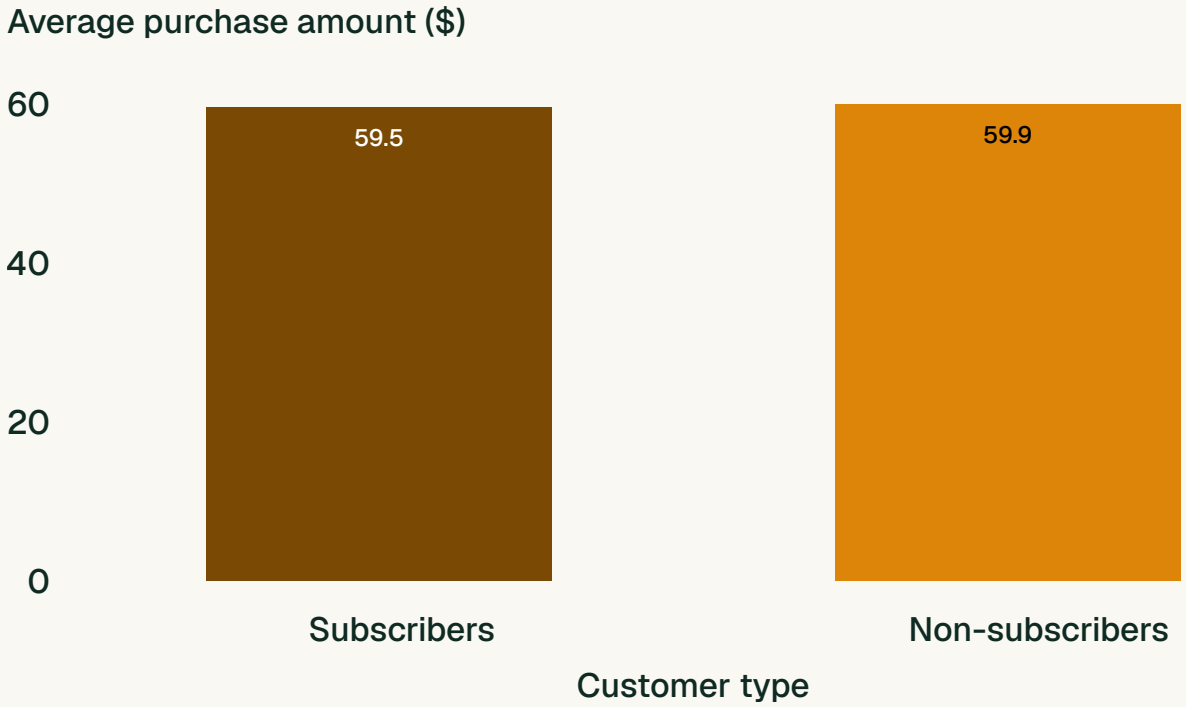

Average purchase amount: $59.76 across the dataset

| Signal | Value | Read-through |
| --- | --- | --- |
| Highest discounted-purchase rates | 47.37%–50.00% | Hat, Sneakers, Coat, Sweater, Pants |
| Above-average spenders using discounts | 839 | Review by customer value |
| Average purchase amount | $59.76 | Control the margin trade-off |

Made with GAMMA

SUBSCRIPTION VALUE

# Subscription is not yet differentiating spend

## The average purchase is nearly identical.

**$62,645**

subscriber revenue

**$170,436**

non-subscriber revenue

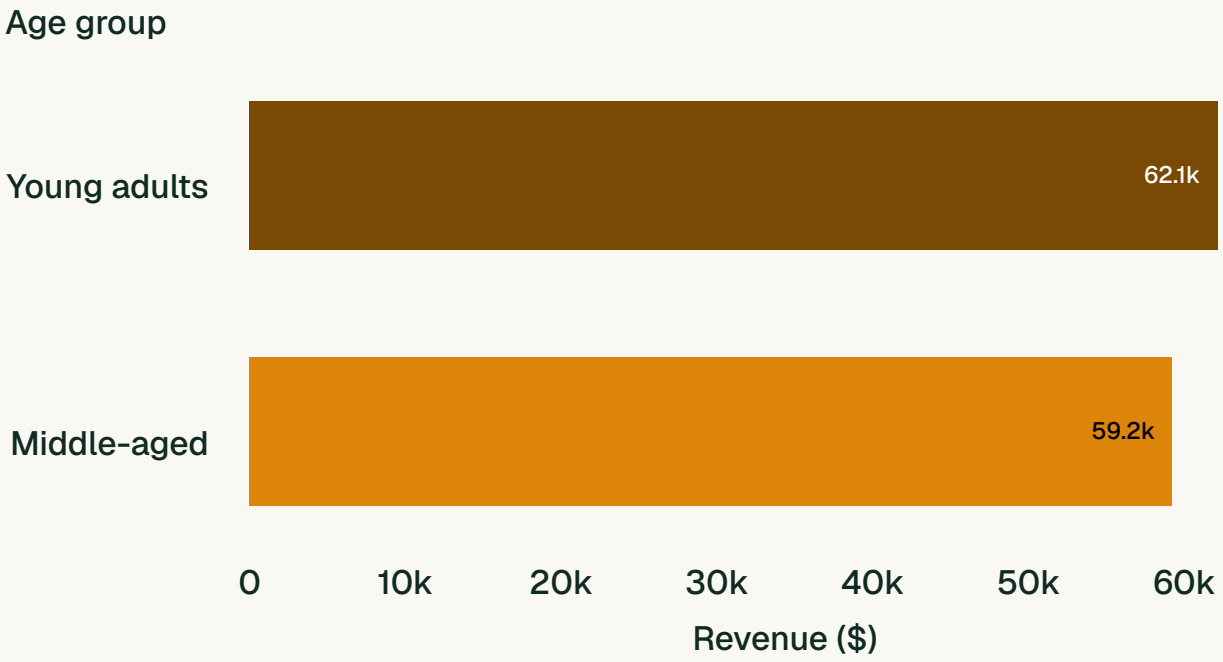

The opportunity is to make subscription benefits visible, not simply available.

Made with GAMMA

TARGETING LEVERS

# Age and shipping data point to practical targeting

REVENUE BY AGE GROUP

Young adults contribute the most revenue, followed by middle-aged customers.

**$60.48**

Average purchase with express shipping

$58.46 with standard shipping

Prioritize high-value audiences with convenience-led offers.

DECISION SYSTEM

# The analysis pipeline is ready for repeat decisions

01

### Clean the data

Impute the 37 missing review ratings by product-category median.

02

### Standardize and engineer

Add age groups plus purchase-frequency days.

03

### Answer and report

Use PostgreSQL for business questions and Power BI for interactive reporting.

Made with GAMMA

GROWTH PLAYBOOK

# Four moves can turn insight into growth

### Grow subscriptions

Bundle exclusive benefits around products customers already buy.

### Reward loyalty

Move returning buyers into the loyal segment with targeted incentives.

### Protect margin

Review discount dependence by product and customer value.

### Focus the message

Build campaigns around top-rated products and high-revenue age groups.

Made with GAMMA

NEXT STEP

# Connect the dashboard to a test-and-learn cadence.

01

### Choose the tests

One subscription offer, one discount test, and one product-led campaign.

02

### Track the outcomes

Conversion, average purchase amount, repeat purchase behavior, and margin impact.

03

### Compare and repeat

Use the dashboard by category, age group, shipping type, and subscription status.
